## INSIGHT 2014

Seminar On

A U T I S M

Saturday, April 19, 2014

Time: 9.00 am to 5:00 pm

at

**PRAYATNA**  
Centre for Child Development  
Palarivattom, Cochin

## About Prayatna

### Greetings from Prayatna!

Prayatna is a multidisciplinary child development centre located in Palarivattom, Cochin providing Clinical, Therapeutic and Educational services for children with developmental disorders like Speech Delay, Autism Spectrum Disorder, Attention Deficit Hyperactive Disorder, Sensory Processing Disorder, Behavioural Disorder and Learning Disability. As a part of our second anniversary celebrations we are organising a one day seminar on Autism in April - The International Month for Autism Awareness.

## Theme of the seminar

- IDENTIFY
- INTERVENE
- INVOLVE
- EVOLVE

The prevalence of autism in India is estimated at the rate of 1 in 250. Due to lack of awareness among parents, teachers and related professionals, most of the children go unidentified and untreated. These children will benefit from intervention programs by a multifunctional team of qualified and trained professionals including Clinical Psychologists, Speech Therapists, Occupational Therapists, Sensory Integration Therapists, and Special Educators.

This seminar focuses on:

- Awareness about Autism Spectrum Disorder
- Importance of Early Identification & Early Intervention
- Significance of Psychological Evaluation, Medical Management, Speech Therapy, Occupational Therapy, Behavioural Therapy & Special Education in Autism Spectrum Disorder (ASD)

## Key Speakers

Renowned professionals will be the resource persons in this seminar.

- **Dr. K. M. Anand, M.D., MRCP (UK), MRCPCH, Fellow in Neonatology (Australia) Pediatrician & Neonatologist** - *“Early Identification of Autism”*
- **Dr. U. Vivek, MBBS, DPM, MD., Psychiatrist** - *“Pharmacological Management of Autism”*
- **Ms. Mythily Chari, B.A., M.Ed. (Florida), Ed. S. (Florida), Special Educator (Founder Trustee of I.R.I.S.)** - *“Individualized Education Programme & Inclusive Education for children with Autism”*
- **Mr. Joseph Sunny, M.O.T.(Pediatrics), Occupational Therapist (Director, Prayatna)** - *“Sensory Integration Therapy for Autism”*
- **Ms. Blessy K Mathew, M.A.S.L.P., Speech Therapist** - *“Speech & Language Therapy for Autism”*
- **Ms. Minna Mathew M.A., M.Phil. Clinical Psychologist** - *“Behavioral Therapy for Autism”*

## Learn the Signs & Act Early

Prayatna understands that every child born in this world is unique in appearance, growth pattern and abilities. While some children grow and develop skills easily, there are some special kids who need assistance in acquiring skills as they grow. It is the responsibility of parents and teachers to understand and identify any deviation, delay or difficulty in a child’s growth process and help him/her grow and transform into an independent and skillful individual.
